

Colours have the power to transform moods, personalities, spaces. Colours also are a reflection of the deeper meanings representing the intangible that may otherwise get missed.

For us at JCIL, at core, we are about making colour.

And we understand that trends govern choices and deep research determines trends, especially colour trends.

So we have here, a carefully curated set of 12 special colours & few combinations that are sifted out of multiple colour trend predictions for the year 2025.

The months are assigned colours that are believed to resonate with the time of the year globally.

For, even as a diversified global group, we strongly abide by our vision line "Colouring Your Imagination".

Let this year 2025 fuel your creativity & imagination.
